Collection  
**Typographia**  
Kids

---

In 2014, TABISSO launched a furniture line for children, *Typographia Kids*, aimed to trigger a fun interaction with the objects.

This is a logical follow-up to the Typographia lounge collection - now it's also time for our kids to play around with their furniture!

# Concept

## Letters & Numbers

The *Typographia Kids* chairs offer the full range of letters and numbers. Designed for children between 5 to 10 years old (size T3 EN1729), they are educative and playful.

## User friendly

The chairs can stack for easy storage, and are all round-edged to be safe in usage.

---

Great fun and educative, this range is ideal for library or school projects, for any commercial project wishing to dedicate a waiting area to kids, and of course also for home!

---

# Specifications

## Made to order

Made to order along the numerous models and colour options, the *Typographia Kids* range allows to compose and come up with this uniquely fun atmosphere for interior projects.

## Sustainable

The *Typographia Kids* chair range has been eco-designed from the start, observing a holistic approach taking into account the full life cycle of the product - choice of materials, ease of components (dis-)assembly, and short logistic cycles with suppliers.

### The Shell

European beechwood from sustainably managed forests covered with laminate Formica® Colours. Three standard colours of Formica® are available. Many more colours beyond standards can be chosen with a minimum of 6 chairs per new colour.

### The footing

Tubular structure in powder coated steel, white.

### Standards Colours

Vibrant green  
# F6901

Polar White  
# F2274

Amarena  
# F6907

---

Educative furniture for children, with  
robust and sustainable design.  
Fun chairs with vibrant colours, for the  
pleasure of kids and parents alike!

## Who we are

TABISSO is a French company founded in 2010 focusing on high-end innovative furniture solutions for the Contract market. Our approach is geared towards architects and professional clients with high expectancies for their projects in the Hospitality and Office sectors.

We aim at putting forward collections with character, the type of furniture that stands out and have true signature effects in an interior. We strive for a strong visual impact - our ambition is to spark curiosity, stir emotions, drive creativity.

Modularity and customization is key for these new generation products, in order to best match the specific project's aesthetics and make each realization unique.

## Environment & Quality

Environmental aspects are central in the development and manufacturing of the collections, taking into account the full life-cycle of the objects produced – wood is certified, recyclable materials are always preferred, products are kept simple in order to help maintenance and to facilitate final disassembly and sorting.

The production of our furniture is on-order along each project's specifications. All products are manufactured in France for top quality control, best reactivity and minimum environmental footprint.
